

Resource List for “Shoreline Bugs and Lake Health”, May 14, 2020

1. Brendan Martin Bio:

Brendan Martin, Aquatic & Terrestrial Biomonitoring Project Coordinator

Brendan is our Aquatic and Terrestrial Biomonitoring Project Coordinator. He works with post-secondary students and local organizations to determine the health of our lakes and forests. He has a Bachelor of Environmental Studies majoring in Environment and Resource Studies from the University of Waterloo and an Environmental Technologist Diploma from Sir Sanford Fleming College. He has worked with multiple conservation authorities across Southern Ontario in various environmental monitoring roles encompassing wetland evaluation, fisheries assessment, and water chemistry. He received his Ontario Benthos Biomonitoring Network certification in 2015 and has since become a Society of Freshwater Sciences certified taxonomist. He enjoys camping, traveling with his friends and family, and running Dungeons and Dragons games for his friends.

2. Jim Prince Bio:

Jim Prince has been a regular visitor to Haliburton for the past 30 years and has owned a family cottage on Kennisis lake for the past 18 years. He's currently the Vice President and Stewardship coordinator for the Kennisis Lake Cottage Owners' Association and was instrumental in developing and implementing The KLCOA Lake Plan. Jim has taken an active interest in preserving the health of the Kennisis Lakes and
