

PH Resource List for “COP28 Post-Mortem – The Good, The Bad and the Ugly”, Mitchell Beer, December 28, 2023

A. Background on The Energy Mix and Mitchell Beer, Publisher

1. Biographical Information on Mitchell Beer

Mitchell Beer is publisher of The Energy Mix, a free e-digest on climate change, energy, and the shift off carbon. He traces his background in renewable energy and energy efficiency to 1977, in climate change to 1997, and delivered a TEDx Ottawa talk in October 2019 on how to build public demand for faster, deeper carbon cuts. A proud moment was building a model wind turbine out of wooden stir sticks with his then-11-year-old daughter, and improv comedy practices are often the best part of his week.
